

TAKE THE RURAL ROUTE TO SUCCESS

Spring is here and if you are looking to spruce up your business or residence, Farmer's United Inc. is your place for rock, mulch and more! Farmer's United offers delivery services of rock, mulch, hay and spreading fertilizer.

Started as a co-op in **1979** by farmers to assist with feed, seed, fertilizers and chemicals, Farmer's United has been a staple in the Surry Community for **40 years** and has expanded into serving the residential community with products such as animal feed and animal health products, grass and garden seeds, propane and other unique gifts such as candles and raw peanuts.

When asked what makes your business unique, *"you can still find us accepting grain crops from the farmers and when our customers need an item that we do not have, we will go out of our way to find it. Our customers are our priority"*, said Susan Corvello.

Kenny Pittman, Manager and employees enjoy meeting all the people living in the community and welcome all newcomers to stop in.

CONGRATULATIONS ON SERVING OUR
COMMUNITY FOR 40 YEARS!
